

mosquito love shack?

put a stop to it.

Sprinkle PreStrike mosquito larvicide granules in standing water to stop mosquitoes from hatching into breeding, biting adults. You'll get long-lasting mosquito control that won't harm vegetation, fish, humans or animals. PreStrike ends the love fest in water gardens, birdbaths, flowerpots, gutters and other places where water collects.

Pick up PreStrike at a retailer near you. Visit www.prestrike.com for more information.
